

COVID-19 UPDATE

March 17, 2020

To our valued clients:

On behalf of all of us at Snyder Langston, we take the recent outbreak of the COVID-19 virus seriously. As you know, the situation is very “fluid.” Recommendations and requirements change by the hour. In an abundance of caution and given that our technology platform is robust and secure, we have asked the majority of our personnel to work from home. Please know that;

- **Our offices will remain open** for personnel who prefer to work at the office.
- **Our jobsites will remain staffed** as the individual project teams deem necessary to **maintain the safety of operations** and to ensure that **quality and schedule will not be compromised**.
- As you will read in the attached memo to our subcontractors, we are verifying the current status of **material delivery** and **adequate workforce** to avoid or mitigate disruption to our projects.

I have also attached the memo we sent our employees providing direction for the next two weeks. These memos will give you more detail on the exact steps we are taking to assure you that we are doing everything possible to remain seamless and fully functional under the current circumstances. In all situations, we are following the recommendations of the CDC.

If you have any questions or concerns, please contact me at your earliest convenience.

Sincerely,

John F. Rochford
Chairman & CEO
